SUMMARY

SaaS Implementation Specialist III with 2+ years of experience configuring CRM and admissions platforms for large-scale enterprise clients. Specialized in workflow automation, custom JavaScript development, CRM/VPA/Score Card configuration, UAT coordination, and secure infra/IP whitelisting for enterprise go-lives. Mentored 15+ interns and 3+ full-time employees, strengthening team capability. Proven track record of cross-functional collaboration with Product, Delivery, and Customer Success teams to ship scalable solutions on tight timelines.

WORK EXPERIENCE

Meritto

Implementation Specialist III

Gurugram, India

Dec 2024 – Present

- Configured forms, Exam, Workflows, VPA/CRM/Score Card, JSON-based ERP data push integrations, landing pages, and widgets for enterprise client implementations, ensuring secure and compliant rollouts.
- Managed IP/domain whitelisting, infrastructure access provisioning, and UAT coordination with client IT and security teams, reducing go-live delays caused by access and compliance gaps.
- Developed JavaScript/jQuery-based automation utilities - including a Test Expander and Backup Module - to eliminate repetitive content entry and prevent human error caused by misconfiguration (e.g., JS code pasted into the wrong entity), eliminating human error in this workflow.
- Analyzed client requirements and translated them into scalable implementation solutions aligned with product capabilities, improving delivery quality and streamlining implementation turnaround across the team.
- Mentored and trained 15+ interns and 3+ full-time employees on implementation workflows, CRM configuration, Exam, VPA/Score Card and troubleshooting best practices - enabling faster ramp-up and increased team bandwidth.

Capgemini

Software Engineer

Bengaluru, India

Jul 2024 – Sep 2024

- Maintained and optimized a suite of applications utilizing Spring Boot and MySQL, significantly boosting backend service performance and reliability.
- Implemented full-stack solutions with MongoDB and React, backed by JUnit test coverage, improving system efficiency in an agile environment.
- Developed responsive UI components using React, HTML, and CSS to create engaging user experiences.

SKILLS

Languages : JavaScript, jQuery and Java

Front-end : React.js, HTML5, CSS3 and Styled Components

Data & Databases : MongoDB, JSON, REST APIs, SQL and MySQL

Cloud : Vercel, AWS and Render

AI & Productivity : ChatGPT, Claude AI, Prompt Engineering and AI-Assisted Development

Tools & Testing : Git, GitHub, Postman, VS Code, Playwright, UAT and STS

Backend : Node.js, Express.js and FastAPI

PROJECTS

Portfolio | [Demo](#)

- Built a responsive full-stack portfolio website using React.js, JavaScript, HTML, and CSS to showcase professional experience, technical skills, and project work.
- Implemented a secure contact form with an Express.js and MongoDB backend to handle and persist user-submitted messages.
- Designed reusable React components and responsive UI layouts to improve maintainability, usability, and cross-device compatibility.
